

Peace, Justice and Strong Institutions

This objective endeavors to substantially diminish all types of violence by engaging with communities and governments to address conflicts and enhance the security landscape. Key strategies involve promoting the rule of law and upholding human rights, curbing the illegal export of weapons, and fostering increased participation of developing nations in global governance frameworks. These efforts are vital for achieving a safer and more peaceful world. The Scientific Council of ATMU is dedicated to actively influencing the university's position in education, striving for exceptional quality and effectiveness in scientific research. Our objective is to strengthen international relations and elevate the university's global reputation. Furthermore, we are deeply involved in discussions on pivotal matters, playing a pivotal role in shaping the viewpoints within the Republic. The Student Scientific Society at ATMU plays a vital role in organizing and coordinating scientific activities for young scientists and researchers studying and working within the university.
